IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Boonville PWS Failure to Meet Monthly Microbiological, Ultraviolet Light Operations, Turbidity and Disinfection Reporting Requirements

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We are also required to report these monthly drinking water test results to the Missouri Department of Natural Resources by the 10th day of the following month. Although required monitoring was conducted during the monitoring period, we failed to submit the monthly reports for total coliform bacteria, ultraviolet light treatment, disinfection and turbidity for the February 2026 monitoring period to the department by March 10, 2026, in violation of state and federal monitoring and reporting requirements.

What should I do?

There is nothing you need to do at this time. Although this incident was not an emergency, as our customers you have a right to know what happened and what we did to correct the situation.

What happened? What is being done? (Describe corrective action.)

The reports were prepared and ready in the email to be sent out on the scheduled date.

On the date they were to be sent out, the manager was pulled away to another job.

When he realized the email was not sent it was late to MODNR. The corrective actions is we have 3 people now that have been added to the list to make sure the email is sent on time.

For more information, please contact water system staff indicated below:

Kevin McKee at 573-476-4395 or 901 Riviera Dr, Boonville, MO
(name of water system contact) (phone number) (mailing address)

Additionally, you may contact the Missouri Department of Natural Resources Northeast Regional Office at 660-385-8000 or the Public Drinking Water Branch at 573-526-6925.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
